## *Payton34 2018 Fantasy Football - Etc*

Blah blah blah.

I created this file in Google Docs. It's nice. It's free. It's in the cloud. But it still ain't as good as any old editor running on your machine. This little experiment proved that to me. I can't even float an image to the right of a paragraph, etc.

### Website images

There is no rhyme or reason to the images in my carousel on the main page. Sorry. I'll take that back... I like these guys, and they're good.

Anywho, here are the sources for those guys. Well, most of them.
